The JK Difference

◆ **Lots of room for your shopping.** We limit the number of people we take on shopping tours to leave ample room for your purchases. Many people tell us they can bring back much more than if they went by car. Besides, what's the point of going on a shopping tour if everybody is packed in like sardines from the get-go?

◆ **Superior Planning.** Your tour directors are also certified shopaholics and it's their job to guide you to the best bargains. We know where the best places are and can point out where to have a tasty snack or take some time out for a rest. With us, it's all about the details.

◆ **Seat-side Service.** We make sure a cold drink and a snack are never out of reach on travel days and we help pass the time with activities and special surprises. Best of all - it's included in your package price!

What's included? 2 nights accommodation; round trip motorcoach travel; breakfast daily; shuttle service to all shopping destinations listed; complimentary snacks, goodies and discount coupons; extra storage room on the bus for purchases; experienced tour director; all taxes.
